SHRISHTI

Computer Science Engineering (AI & ML) • Software & Mobile Developer

Location: Panchkula, Haryana, India • **Phone:** +91 7009366199 • **Email:** shrishti2905@gmail.com
Portfolio: https://shrishti-19.github.io/myPortfolioShrishti.github.io/

TECHNICAL SKILLS

Languages:	Python, C, C++, C# (.NET), TypeScript, JavaScript, SQL, HTML5, CSS3
Frameworks & Libs:	.NET MAUI, FastAPI, React, Vite, Tailwind CSS, TanStack Query, CustomTkinter
AI & Emerging Tech:	Google Antigravity, Google AI Studio, ONNX Runtime, Hugging Face, Prompt Engineering
Databases & Tools:	Microsoft SQL Server, SQLite, Git, GitHub, Visual Studio, VS Code, Blender 3D, Unity 3D

INTERNSHIPS

- **Indian Institute of Technology (BHU) Varanasi** — Technical Intern (Virtual / Online) **Completed**
- **InternVision** — Software Development Intern (Virtual / Online) **Completed**

FEATURED PROJECTS

Sugar Tracker App • **Mobile App (Android)** **Status: Live on Google Play**
.NET MAUI • C# • XAML • SQLite • Native Canvas API • Android SDK • Google Antigravity
Live Link: https://play.google.com/store/apps/details?id=in.testskill.sugar
- Architected an offline-first glucose monitoring Android app using Google Antigravity for rapid prototyping and validation.
- Implemented secure local SQLite schemas for biometric logging and Native Canvas visualizers for glycemic trend tracking.

Privacy-First Code & Text Cryptography Auditor • **Desktop & CLI** **Status: Completed**
Python • ONNX Runtime • Hugging Face • CustomTkinter • AST Analysis • Google Antigravity
- Built air-gapped auditor using Google Antigravity for local scanning; paired regex with quantized ONNX models for PII masking.
- Reduced false positives by >85% using Shannon entropy, Luhn checksums, and AST denylists across GUI and headless CLI modes.

Enterprise HRMS Portal • **Full-Stack Web Platform (Localhost)** **Status: Completed (Local Deployment)**
React • TypeScript • Tailwind CSS • FastAPI • MS SQL Server • TanStack Query • Google Antigravity
- Developed full-stack workforce portal using Google Antigravity for schema mapping, API scaffolding, and endpoint security testing.
- Engineered JWT-based RBAC across 3 tiers, UTC-synced attendance tracking, split-pane ticketing, and query caching.

Pebble Path • **Browser-based Web Game** **Status: Under Development**
React • TypeScript • Vite • HTML Canvas • Web Audio API • Google AI Studio
- Developed an 8-stage path puzzle and resource management game using Google AI Studio with isometric canvas and procedural audio.

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML) **Expected 2027 • Pursuing (Sem 7)**
SIET Panchkula, Haryana (Affiliated with Kurukshetra University) • **Latest SGPA: 7.67** (Sem 6)

Class XII (CBSE) • Govt. Model Sanskriti Sr. Sec. School, Panchkula **77.4% • May 2023**

Class X (CBSE) • Holy Child School, Panchkula **94.2% • June 2021**

HONORS & CERTIFICATIONS

- **Accenture iAspire:** Unlocked Gold Level
- **Reliance Foundation:** Python Programming
- **Learn Skillible:** Generative AI Certification
- **IBM SkillsBuild:** Web Development
- **Infosys Springboard:** Artificial Intelligence
- **LetsUpgrade:** SQL Bootcamp Certification
