

SHRISHTI

B.Tech CSE (Artificial Intelligence & Machine Learning)

Panchkula, Haryana, India • +91 7009366199 • shrishti2905@gmail.com • [Portfolio](#)

PROFESSIONAL SUMMARY

Motivated and results-driven Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning. Demonstrated software engineering capabilities with a production mobile application published on the Google Play Store built using .NET MAUI, C#, and SQLite. Proficient in Python, C/C++, relational database management (SQL Server/SQLite), modern responsive web development, and generative AI technologies. Experienced in collaborative engineering through competitive internships with IIT (BHU) Varanasi and InternVision.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, C# (.NET) (Foundational), JavaScript (Foundational), SQL
- **Web & Mobile Development:** .NET MAUI, XAML, HTML5, CSS3
- **Databases & Storage:** SQL Server, SQLite
- **AI & Emerging Tech:** Prompt Engineering, Generative AI (Image/Video Synthesis), Basic Machine Learning
- **Developer Tools & Platforms:** Google Antigravity, Visual Studio, VS Code, Blender 3D, Unity 3D, Git/GitHub

KEY PROJECTS

Sugar Tracker — Blood Sugar Monitoring App | [Live on Google Play Store](#)

Tech Stack: .NET MAUI, C#, XAML, SQLite, Android SDK, Native Canvas API • Google Play Store:

https://play.google.com/store/apps/details?id=in.testskill.sugar&pcampaignid=web_share

- Engineered and launched an offline-first health management Android application published and verified on the Google Play Store.
- Integrated local SQLite database architecture for persistent encrypted record keeping, structured metric logging, and sub-second retrieval.
- Developed dynamic trend charts and historical analytical views enabling users to visualize glucose variations and health trajectories.
- Engineered on-device PDF report compilation and native sharing functionality for seamless clinical consultations.
- Crafted interactive Android home-screen widgets (2x2 & 4x2 layouts) leveraging Android's native Canvas API for low-latency rendering.
- Configured R8 code shrinking, bytecode obfuscation, and ahead-of-time (AOT) compilation to maximize security and ensure store policy compliance.

College Web Portal Development | [Web Developer \(Team Project\)](#)

Tech Stack: HTML5, CSS3, JavaScript, Render Cloud Deployment • Demo: [clg-web-0zlx.onrender.com](#)

- Collaborated in a development team to design and deploy a responsive departmental web portal serving institutional announcements and events.
- Implemented modern CSS layout techniques (flexbox/grid) ensuring consistent cross-device rendering and streamlined navigation flow.
- Utilized Git version control for code reviews and branch management; deployed live production build via Render hosting.

Personal Developer Portfolio | [Front-End Developer](#)

Tech Stack: HTML5, CSS3, JavaScript, GitHub Pages • Live URL: [shrishti-19.github.io/myPortfolioShrishti.github.io](#)

- Architected and deployed a mobile-responsive personal portfolio platform to showcase engineering projects, tech stack, and certifications.
- Integrated modern responsive UI paradigms and automated hosting via GitHub Pages with seamless continuous version tracking.

INTERNSHIP EXPERIENCE

- **Research & Technical Intern — Indian Institute of Technology (BHU) Varanasi:** Completed specialized technical internship engagement focusing on computational engineering problem solving and hands-on technical collaboration.

- **Software Development Intern** — **InternVision**: Participated in development sprints, module programming, code debugging, and software verification workflows.

CERTIFICATIONS & KEY ACHIEVEMENTS

- **Gold Badge Awardee** — Accenture iAspire 'Go for Gold' National Contest
- **Generative AI & AI Specializations** — LearnSkillible (Intro to GenAI) & Infosys Springboard (Intro to AI)
- **Python Programming Certification** — Reliance Foundation Skill Academy
- **SQL & Relational Databases Bootcamp** — LetsUpgrade
- **Web Development Certification** — IBM SkillsBuild

EDUCATION

Degree / Qualification & Institution	Specialization / Stream	Score / GPA	Year
B.Tech in Computer Science & Engineering State Institute of Engineering & Technology (SIET), Panchkula	Artificial Intelligence & Machine Learning (Cumulative SGPA: ~6.82)	Pursuing (Sem 7)	2023 – 2027
Senior Secondary Certificate (CBSE Class XII) Govt. Model Sanskriti Sr. Sec. School, Panchkula	Non-Medical Science Stream (Physics, Chemistry, Mathematics)	77.4%	2023
Secondary School Certificate (CBSE Class X) Holy Child School, Panchkula, Haryana	General Academic & Information Technology	94.2%	2021
